## Full Stack Software Engineer

Full-Stack Developer with experience in Ruby on Rails and JavaScript based programming. My experience in frontline, client relation roles for the last 8 years has refined my skills in problem-solving and design skills, and has strengthened my desire to help others. Since working on many diverse teams and roles in the past, I realize I want to work for a company that supports one another and our community. My motivation for pursuing Software Engineer is to delve deeper into client concerns, so I can find a solution in a more effective way.

## TECHNICAL SKILLS

Ruby, Rails, SQL, Javascript, React, Active Record, HTML, CSS

## TECHNICAL PROJECTS

### Tasks - [Github](#) | [Demo](#)

Add a daily task to each day of your choosing, delete task once completed

- Collaborated on a team of 3 to build a React productivity app within a week
- Added the necessary React logic to ensure tasks could be added, persisted, and deleted as the user desires
- Honed in on the CSS of the app, creating a beautiful story and flow with the app's design

### A24 Filx - [Github](#) | [Demo](#)

Browse A24 film, see the ranking of all A24 films and rotten tomatoes score, watch trailers for each film, leave reviews

- Collaborated with 2 other cohort mates to build a REST API and a custom database schema
- Developed a fully functioning A24 movie hub app using React for the frontend and Ruby, Sinatra, and Active Record on the backend
- Implemented Design Methodology by paying close attention to CSS details to replicate a Netflix-themed app to ensure a desirable user experience

### Broadway Hub- [Github](#) | [Demo](#)

Browse Broadway musicals, comment on and post videos for each musical/song, read about different musicals and actors

- Utilized AWS and Active Storage to hold a heavy amount of data necessary for this project
- Independently set goals for myself and criteria needed to build this web app in 3 weeks' time
- Formulated JSX functions and Ruby methods to enable a myriad of event listeners, resulting in creating a more complex application
- Made CSS decisions by creating an aesthetically pleasing theme

## EXPERIENCE

### Wyndham Destinations

Remote, FL

Vacation Planner

04/2021 - 05/2022

- Used relationship building, and communication skills to problem solve timeshare owner's concerns across a multitude of different channels
